"Understanding the Problem Statements under Cyber –Security today! Hack&Reboot" organised by IIT, Kanpur on 7th September, 2020

An important webinar on "Understanding the Problem Statements under Cyber –Security today! Hack&Reboot" organised by IIT, Kanpur on 07/09/2020 (4:00 PM – 5:30 PM). From ICAR-ATARI Kanpur, Dr Atar Singh, Director and Mr. S.N. Yemul took part in this webinar.

The experts like Dr. Harsh Vinayak, Senior Vice President, NTT DATA; Dr. Abhishek Singh, President, and CEO, National E-Governance Division; Prof. Debdeep Mukhopadhyay, Associate Professor, IIT Kharagpur; Prof Sandeep Shukla, Professor, Dept. of Computer Science & amp; Engineering, IIT Kanpur; Host and Moderator – Prof. Manindra Agrawal, Director C3I Hub, Dept. of Computer Science & Engineering, IIT Kanpur take over this important programme. About 65 participants were registered and availed this programme virtually.

Discussions were made on following points which are in perspective of the programme –

☞ Use of VPN to enter enterprise network from Home
☞ Strong multi-factor password
☞ Avoid personal activity when connected to company network
☞ Ensure security updates are current
☞ Use host based firewalls to block ports
☞ Local Encryption (BitLocker)
☞ Lock screen when not in use
☞ Physically secure removable media
☞ Update home wi-fi router
☞ Change admin password on home wifi and change network password
☞ Do not use RDP
☞ Do not download random software

At the end of this virtual programme, vote of thanks given by Prof. Manindra Agrawal
