**GUIDELINES FOR DISTRICT ANIMAL HUSBANDRY OFFICER FOR UNDERTAKING FOLLOWING IDENTIFIED ACTIVITIES PERTAINING TO ANIMAL HUSBANDRY IN ASPIRATIONAL DISTRICTS DURING KRISHI KALYAN ABHIYAN PHASE- II FROM 2<sup>ND</sup> OCTOBER TO 25<sup>TH</sup> DECEMBER 2018:**

- (i) 100% vaccination coverage of bovines in each village with FMD Vaccine
- (ii) 100 % vaccination coverage of sheep and goats for control of PPR
- (iii) Artificial insemination of 100 breedable bovines in every chosen 100 Villages ( 25 villages under KKA Phase - II & 75 villages under genetic upgradation programme ) per district with semen of high yielding indigenous breed (HYIB) bulls.

**1. Selection of Villages/ AI Technician/ vaccinator:**

1.1 The District Animal Husbandry Officer (DAHO) will identify 75 villages under genetic upgradation programme in addition to 25 villages already selected by Niti Aayog under KKA Phase - II per district. Exact number of villages to be selected/ district is given in the administrative approval of Genetic Upgradation programme dated. 13.9.2018 (copy enclosed). The DVO shall submit the list of villages to DADF on or before 25<sup>th</sup> September 2018.

1.2 The District Animal Husbandry Officer (DAHO) will identify vaccinator (paravet/NGO/AI technicians) in every chosen 25 villages per district and AI technicians (Government/ DCS/Private/NGO) for carrying out aforementioned activities in every chosen 100 Villages ( 25 villages under KKA Phase - II & 75 villages under genetic upgradation programme ) per district.

1.3 Details of identified vaccinators and AI technicians along with their mobile numbers shall be made available to incharge **Krishi Vigyan Kendra (KVK)** for uploading on KKA portal on an immediate basis.

**2. Supply of vaccine and semen doses:**

2.1 Village wise targets for 100% coverage of FMD (bovines population) and PPR (Sheep and Goats) vaccination shall be made available to incharge KVK for uploading on the Krishi Kalyan Abhiyan Portal and to the nodal officers of this Department.

2.2 Required number of doses of FMD & PPR shall be made available by the State/District AH authorities to vaccinator along with other logistics for vaccination.

2.3 Village wise population of breedable bovines and targets for AI shall be made available to incharge KVK for uploading on the KKA Portal.

2.4 100 breedable bovines per village shall be covered through AI with high yielding indigenous breed semen meeting standards and specifications given in the guidelines of the scheme. Taking conception rate as 33% about 300 AI per village shall be performed for covering 100 breedable bovines and activity shall be completed by 25<sup>th</sup> December 2018.

2.5 After covering 100 breedable animals per village/ or if 100 breedable bovines not available, remaining doses shall be made available to other villages in the district.

2.6 Semen doses of HYIB semen shall be made available to AI technicians on the basis of breedable bovines and targets set for identified village in the district. Semen doses, AI consumables and other items will be supplied free of cost to AI technicians.

### 3. Delivery of Services at Farmers Doorstep:

3.1 AI technicians will deliver AI services at the farmers' doorstep free of cost and the incentive money shall be provided after verification of data on INAPH data base.

3.2 AI technician will perform AI following SOPs formulated by Government of India. The MSP for HYIB semen shall be from bulls with dams standard lactation milk yield of 3000 kgs and above.

3.3 All the animals covered under AI shall be identified using UID and their data shall be uploaded on INAPH data base through tablets supplied under **Pashu Sanjivni** component of RGM. All the animals covered shall also be given Animal Health Cards - **Nakul Swasthya Patra**.

3.4 If tablets are not available data sheets shall be made available to AI technicians and data recorded by AIT shall be uploaded on the INAPH data base from the stationary centres having desktops. Funds for printing data sheets may be met by the SIA/EIA from the funds released under RGM.

3.5 Calves born through AI will also be identified using UID and data generated will be uploaded on INAPH data base through tablets supplied under **Pashu Sanjivni** component of RGM.

3.6 If all the eligible animals in identified villages have already been vaccinated under the FMD and PPR Control Programmes as per the schedule, then the same data shall be uploaded on KKA portal with the help of I/C KVK. If 100% animals are not covered under vaccination during the said vaccination campaign, then the remaining animals shall be vaccinated during the KKA phase II.

#### **4. Reporting:**

4.1 The District Animal Husbandry Officer (DAHO) will select Vaccinator as per procedure (paravet/NGO/AI technicians) in every chosen 25 villages per district and AI technicians (Government/ DCS/Private/NGO) in every chosen 100 Villages ( 25 villages under KKA Phase - II & 75 villages under genetic upgradation programme ) per district.

4.2 **Actual Achievement Reporting** Each selected vaccinator shall report for 25 villages /AI technician shall report for 100 villages activity wise daily progress (AI/FMD vaccination/PPR vaccination) and cumulative progress to DAHO at the end of day through SMS/phone or any other mean.

4.3 **KVK Reporting:** Daily report on AI for 100 villages and vaccination for 25 villages shall be consolidated by concerned DVO and sent to I/C KVK for uploading on the KKA portal with a copy to District Collector, Director and Secretary of State Animal Husbandry Department.

4.4 **Photograph:** Weekly two photographs from each village shall be made available to I/C KVK for uploading on KKA portal.

4.5 **Monitoring:** Block AHO shall monitor the activities in identified villages on weekly basis and shall visit all selected villages at least once in a week.

4.6 If the animals are already vaccinated against FMD within 6 months the progress shall immediately uploaded on the KKA portal through I/C KVK.

#### **5. Funding of the Activity:**

5.1 Funds have also been provided to States for implementation of FMD and PPR-Control Programmes as per approved funding pattern.

5.2 Cost of procurement of semen doses & liquid nitrogen and other consumables has already been made available to the State Implementing Agency/Department of Animal Husbandry and is included @ Rs 25/dose. Semen doses shall supplied by LDBs to the districts on free of cost basis.

#### **6. Incentive to AI Technicians:**

6.1 Incentive will be made available to the technician @ of Rs 50/ per AI and after that Rs 100 per calf born. Payment will be based on the data available on INAPH data base.

6.2 Each AI technician will perform 3 AIs in period of about 65 days (three estrus cycle) per animal. In case of cattle and buffalo estrus cycle is of 21 days duration.

6.3 Incentive will be transferred through DBT to AI technicians as per the guidelines issued by Gol.
