

MOU between ICAR and Bureau of Energy Efficiency (BEE) on 25 July 2018 to conduct training programs at Krishi Vigyan Kendras (KVKs)

An MOU is being signed between the Indian Council of Agricultural Research (ICAR), New Delhi and Bureau of Energy Efficiency (BEE) on 25 July 2018 to conduct training programs at Krishi Vigyan Kendras (KVKs) across the country for creating awareness among farmers for energy efficient pumpsets, other equipments and operational practices so as to adopt energy and resource efficient approaches.

The MOU is being signed by Dr AK Singh, Deputy Director General on behalf of ICAR and Mr Pankaj Kumar, Secretary on behalf of BEE in the presence of Dr T Mohapatra, Secretary DARE & DG, ICAR in NAAS Complex, New Delhi.

The program will help in improving fuel energy and increasing water resource use efficiency thereby reducing the cost of cultivation so as to increase farmers' income in harmony with strategies of "Per drop more crop" and "Doubling Farmers' income". Convergence like this between the government organizations will help in efficient utilization of financial resources with maximum output.
